PARENT PORTAL OVERVIEW

Welcome to Kite® Parent Portal!

Welcome to Kite® Parent Portal! Here, you can view both current and prior year score reports for any assessment administered through the Kite platform. Score reports are subject-specific, so students receive one score report for each assessment taken.

KAP

For the **Kansas Assessment Program (KAP)** general assessment, you can view Interim Predictive and Summative assessment reports. Interim Predictive assessments help predict future performance on summative assessments and are elective; neither student nor schools are penalized if they do not participate. Summative assessments are taken at the end of the school year and summarize your student's achievement in English language arts, Mathematics, and Science.

KELPA

For the **Kansas English Language Proficiency Assessment (KELPA)**, reports detail your child's English language proficiency across four domains: speaking, writing, listening, and reading.

Select your child below to view their available score reports.
Use the navigation menu on the next screen to select the assessment program and subject.

About Interim Predictive Assessments **2**

Interim predictive assessments are elective; neither students nor schools are penalized if they do not participate.

Interim Predictive assessments in ELA and Mathematics are provided in the fall, winter and spring during the school year. These assessments help predict future performance on the Kansas summative assessments administered at the end of the year. They allow educators to evaluate student's knowledge and skills relative to a specific set of academic goals and can inform decisions at the classroom, school or district level.

Full reports for **Mathematics** can be found in the table below. **3**
